ACADEMIC PROGRAMS MANUAL 2009

If you would like a paper copy of the Academic Programs Manual, you can print the documents and forms on the Web site in the order listed on the table of contents below. The Academic Programs unit will no longer publish a print version of the Academic Programs Manual.

The Academic Programs Web site will be continually updated as material is revised and redesigned, so any material you print may become obsolete. In addition, many of the documents on the Web site are linked internally to one another, which may reduce the utility of a print version.

If you wish to replace documents you have previously printed, the most current date of publication will appear at the bottom right of the documents.
